

SHANTI HOME CARE

Clean
for
Good

Who We Are

In 2016, Shanti HomeCare launched a business model fueled through the idea of 'Clean for Good'. The original product offered in this model, was Eco-friendly Matic Liquid Detergent. It was the first enzyme-based, bio-degradable, and environment friendly cleaning product of SHC. Since then, SHC has expanded its home care products in the categories of Cleaning and Health.

Purpose

"CLEAN FOR GOOD"

We want to create value – by innovating ecofriendly and environment-friendly cleaning products for our customers and consumers, for our teams and our people, for nature and environment, for as well as for the wider society and communities, in which we operate. Shanti Homecare's employees will always put their passion, pride and enthusiasm into making this happen.

Shanti Homecare has proudly restored gallons of water through our 'Clean for good' program. We invented cleaning products which are harmless to environment and water so water used for cleaning and laundry can be used for forestation and gardening. We believe the conservation of water—our world's most precious resource—is vital to sustaining our planet and to supporting the wellness of its people.

Vision

Leading with our innovations, brands and green manufacturing technologies.

We work each and every day to help people live better and safer lives and to help and protect mother earth. We achieve our vision by helping people everywhere by creating awareness to use ecofriendly products and improving their daily life by offering better brands and opportunities for the future, and by sharing generously with the global community.

To produce ECOFRIENDLY and ENVIRONMENT FRIENDLY, cleaners with a PASSION for innovation, DEDICATION to performance and a guiding COMMITMENT to our customers and their families, pets and our planet.

Production & Quality Testing

Green Manufacturing

Green manufacturing technologies and practices help to minimize greenhouse gas emissions, waste generation, and non-renewable or toxic materials. We're manufacturing Bio-degradable cleaning products with green manufacture technologies. Our focus is to produce premium quality products along with protection of customer's daily life and environment.

At Shanti Homecare, we've built our legacy on highly effective cleaning products that don't use and don't need-toxic chemicals. Initially founded to make plant-based, non-caustic cleaners for professional services and Homecare, we bring those same powerful formulas to families and homes across India today. As part of that commitment, all our products are free of phosphates, boron, chlorine, ammonia, petroleum solvents, alcohol, butyl glycol ether, artificial colors and artificial fragrance. We believe that a house free of toxins is a home full of love.
